

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER**

**ESTE INFORME CONTIENE INFORMACION MUY IMPORTANTE SOBRE SU AGUA DE BEBER. TRADUZCALO O HABLE CON ALGUIEN QUE LO ENTIENDA BIEN.**

**Monitoring Requirements Not Met for Troy Borough Water Department.**

Our water system violated drinking water standards over the past year. Even though these were not emergencies, as our customers, you have a right to know what happened and what we did to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During the monitoring period of April 1, 2020 through June 30, 2020 (2<sup>nd</sup> quarter) we did not test for SOC's and therefore cannot be sure of the quality of our drinking water during that time.

**What should I do?**

There is nothing you need to do at this time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for SOC's how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

<b>Contaminant</b>	<b>Required Sampling Frequency</b>	<b>Number of Samples Taken</b>	<b>When Missed Samples Should Have Been Taken</b>	<b>When Samples Were or Will be Taken</b>
SOC's	Three Years	0	04/01/20 – 06/30/20	09/30/20

**What happened? What was done?**

Required sampling was erroneously overlooked. SOC samples are being scheduled and public notification will be provided to customers. We are working with D.E.P. to address the situation.
